

BALSAM GROVE.

you could not tell what they had on white or black clothing. Any one can pass through these rooms and not touch any of the machinery and when you come out it will take you almost an hour to pick the cotton off your clothing.

I have often times heard people, say, the hot run makes the people down South too hot, so they are low isit working in the cotton mills, for I saw people that had worked in the cotton mill all their lives and had never worked in the sun, that had a yellow complexion, you can find many grown ones that have worked in the mills all their lives, that can't tell you what state they live in, and many that can't tell you when it is ten o'clock, by looking at a watch or a clock, there are grown men and women working in these mills, that have never saw the inside of a school house, worked there all their lives and have not got one dollar and are in debt fifty dollars, while there are some saving money, there are boys and girls working for fifty, and seventy five cents per day, and when pay day comes they spend it the next day, they do not look to the future they just think of the present, I don't mean to say they all do this but the majority do.

Well I don't think there is any local news here this time.

We are certainly having some fine weather for winter time. It is fine weather to hunt.

Mr. Oscar Coward of Webster, was on Caney Fork last week, with a petition asking the people to sign it, to keep the court house from being moved from Webster, to Sylva.
